6/18.2 **MINUTES OF MEETING HELD ON 12TH JUNE 2018**

The minutes previously circulated were accepted as a true record.

6/18.3 **PLAN ON A PAGE**
PERFORMANCE UPDATE

Mr Pearson gave an update on performance highlighting the following:-

- Overall recorded crime continues to increase and is forecast for a 14% increase at the end of 2018/19 to around 70,000 crimes compared to 47,000 in 2016/17. The solved rate is stable. Increases are due to a rise in violence against the person, public order and criminal damage.
- Incident levels have continued to increase since February but this is in line with last year. Increases are domestic abuse and alcohol related.
- Incidents closed as missing from home have increased month-on-month since February.
- Immediate response times remain stable however priority and scheduled continue to decrease. It was noted that the response times are self imposed. A number of factors ie the volume and type of incidents, demands as a result of resourcing MFH's and changes in processes, as well as resource levels have all had an impact on the ability to achieve the times.
